

AHMAD MUSTAFA

FULL STACK DEVELOPER / BACKEND ENGINEER

Pakistan | hello@ahmadmustafa.dev | ahmadmustafa.dev

PROFILE

Full stack developer focused on turning complex requirements into dependable, easy-to-use products. Experienced across modern web interfaces, mobile applications, backend systems, APIs, databases, and product-focused engineering.

EXPERIENCE

Full Stack Developer

2024 - Present

Freelance / Remote

Building web and mobile products end to end for clients and independent ventures, from product architecture and interface engineering to APIs, databases, testing, and deployment.

Junior Developer

2023 - 2024

On-site

Delivered production features, collaborated across teams, strengthened engineering fundamentals, and improved maintainability through clean, considered implementation.

Learning & Development

2022 - 2023

Self Learning

Built a rigorous foundation in programming, product thinking, backend development, mobile engineering, and modern application workflows.
